

The Group of Groups

The Group of Groups is a gathering of most of the social groups in Broomhall. They meet about every two months in various centres in Broomhall. The purpose of the Group is for each of the separate groups to communicate, exchange details of activities and ideas and work together to improve security and stability. The local policing team attends meetings to exchange information and improve security. Both the University of Sheffield and Hallam University have representatives that attend. The Group meetings promote interaction between all ethnic groups.
